

## Deca Dental

Deca Dental, headquartered in Addison, Texas, is a leading dental services organization that supports dentists across more than 60 affiliated practices in providing patients with first-class dental services in a comfortable and convenient neighborhood setting at affordable prices.

Founded in 2008, the Company serves patients throughout the Dallas, Houston, Austin and San Antonio, providing a comprehensive suite of services, including general, orthodontic, surgical, cosmetic and restorative dental treatments.

Deca Dental helps dentists manage many time consuming and often stressful business functions such as payroll, patient and staff scheduling, staff recruiting, marketing, financing, real estate management, and accounting and information technology. By assuming these responsibilities, the Company allows its dentists to solely focus their skills and energy on patient care. The consolidation of these business support functions serves to benefit the doctors by enabling them to deliver quality, affordable dental care to more patients without the administrative obstacles. Deca Dental is continuously expanding its organization with additional dental offices, growing both organically and through acquisition, all while maintaining its exceptional standard of patient care.
